ABOUT KICKS

KICK'S Industries, based in Sylvania, Georgia, combines three generations of hunting and shooting experience with over sixty years of combined precision manufacturing experience. This unique combination of experience allows KICK'S Industries to produce precision machined, high-performance products which are engineered to deliver the results sought by hunters & sport shooters alike. KICK'S Industries is family owned and operated.

WHAT WE DO

KICK'S Industries manufactures a complete line of aftermarket shotgun chokes designed for every type of hunting and competition shooting. KICK'S chokes can be purchased directly from the factory or through our international dealer network.

*Exchange and refund policy applies only to items purchased directly from us and does not include shipping charges.

HOW IT WORKS

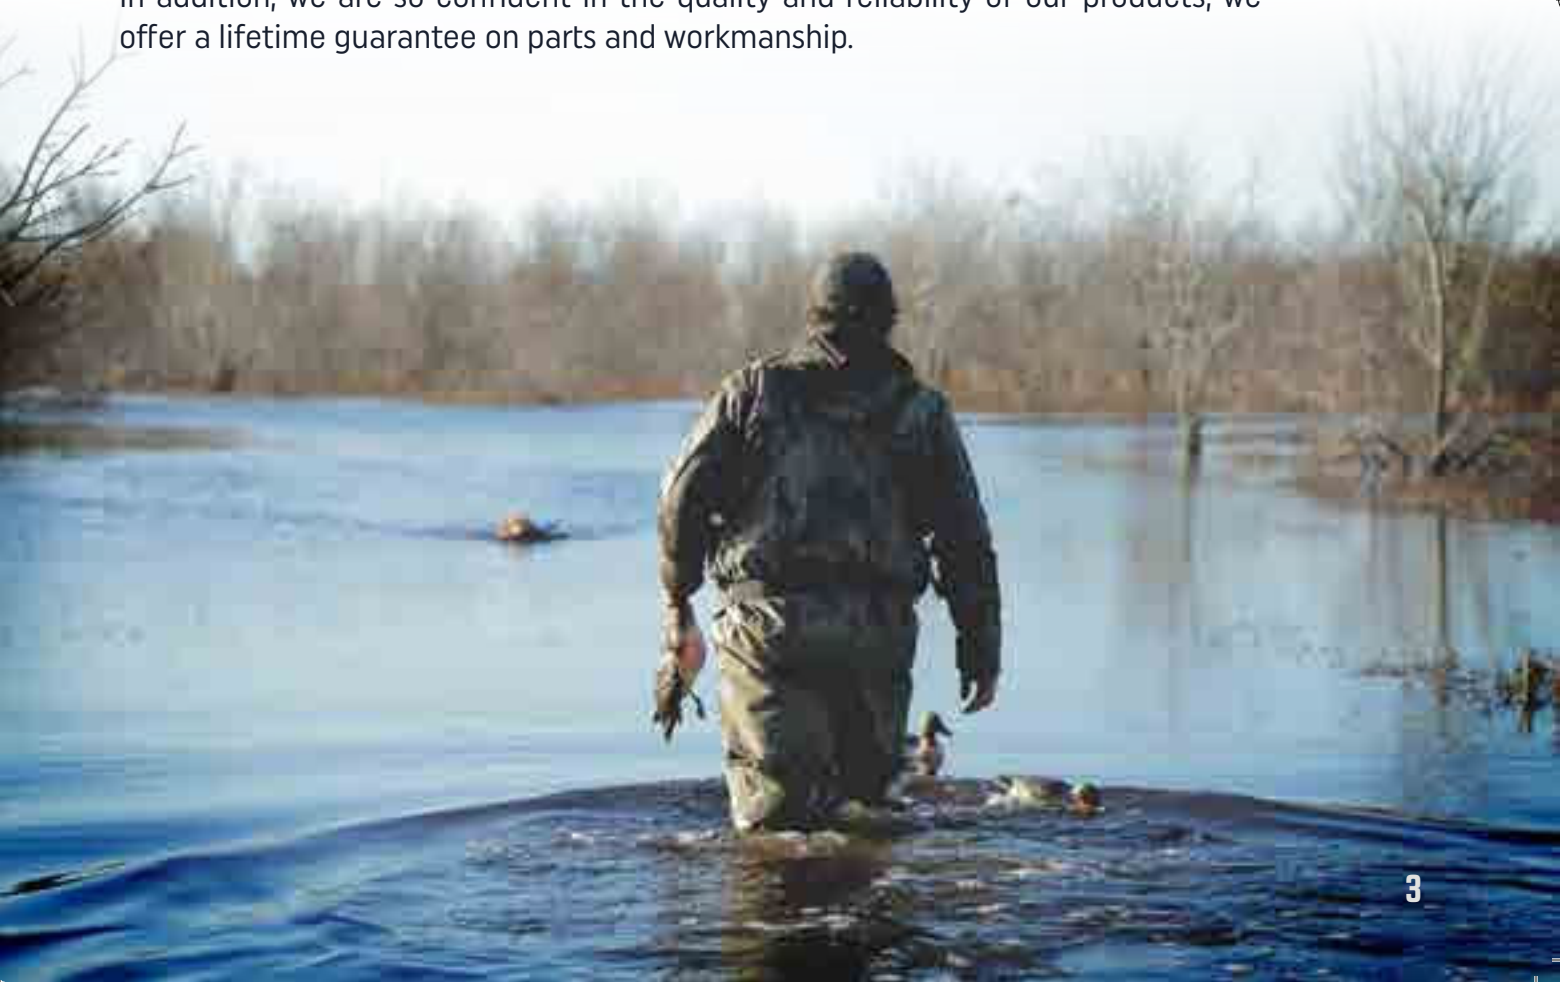

KICK'S chokes are diagonally ported at a 135° angle away from the shooter, which reduces the side blast that is common with other types of porting. Because of the sharp angle of the ports, the leading edge acts as a braking system, slowing the wad down in order to provide superior patterning.

Our unique conical/parallel internal design, together with our exclusive outward angled diagonal ports improve patterns by up to 20% in increased density. Our ports also reduce muzzle jump and felt recoil giving you faster, more accurate, and more comfortable follow up shots.

OUR GUARANTEE

KICK'S Industries offers a thirty day satisfaction guarantee. If you buy a product from us and you are not completely satisfied for any reason, you can send it back to us for an exchange or refund within thirty days.*

In addition, we are so confident in the quality and reliability of our products, we offer a lifetime guarantee on parts and workmanship.

WHY KICK'S IS BETTER

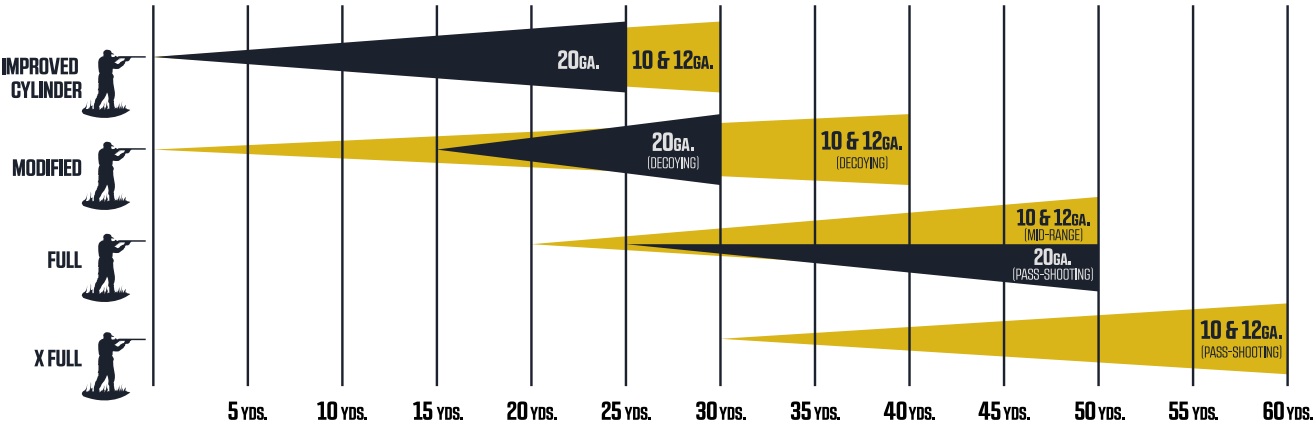

The production of superior quality products begins with the use of superior quality materials. All KICK'S chokes are manufactured from solid, heat-treated, 17-4PH grade round bar stock. The use of solid bar stock eliminates problems with weak seams and other issues encountered with the use of tubing or other lower quality materials.

ALL KICK'S CHOKES ARE COMPLETELY SMOOTH INSIDE THE BORE. THERE ARE NO BLOCKS OR RINGS INSIDE TO DEFORM YOUR SHOT OR INHIBIT YOUR PATTERNING.

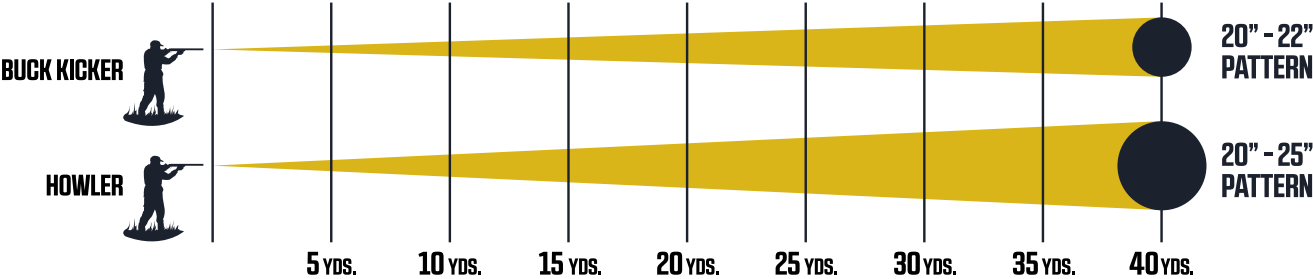

All KICK'S chokes have a unique combination of conical and parallel sections. The conical section is where the choking happens. The parallel section is where the wad-stripping action occurs as the shot returns to a straight path. Plus, there's no wrench required for installation or removal.

EFFECTIVE DISTANCES

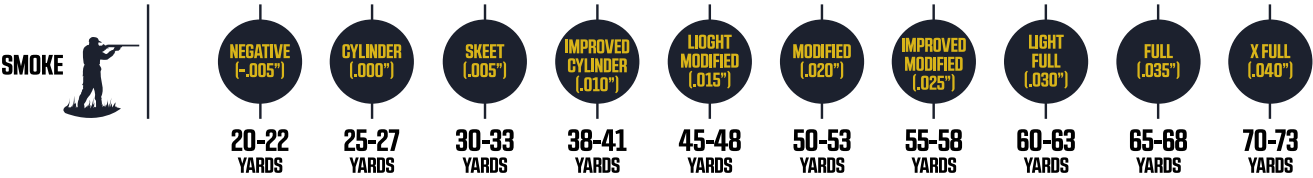

HIGH FLYER & VORTEX CHOKES

BUCK KICKER & HOWLER CHOKES

SMOKE CHOKES

PATTERNING TIPS

- Use a good rest.
- Make sure your target is large enough to capture your entire pattern.
- Shoot multiple targets in order to get a true picture of the patterns your gun is producing.
- Different brands of shells will produce different results.
- Know the capabilities of your gun before going afield.
- **A choke that is too tight is just as bad as a choke that is not tight enough.**

WATERFOWL *HIGH FLYER*

KICK'S High Flyer chokes are specifically designed for use with Hevi-Shot, steel, or lead. For best results when using ammunition meant to be shot through non-ported choke tubes, see page 7 for KICK'S Vortex chokes.

Available in 10, 12, and 20 gauges.

Also Available
in **CAMO**

FEATURES

- 17-4PH STAINLESS STEEL
- CHEMICALLY BLACKENED
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED
- SIZE LABELING BASED ON STEEL SHOT PATTERNING

OTHER APPLICATIONS

DOVE HUNTING

Use High Flyer Modified, Full, or X Full

UPLAND GAME

Use High Flyer Full or X Full

QUAIL HUNTING

Use High Flyer Improved Cylinder

VORTEX

KICK'S Vortex chokes are specifically designed for use with ammunition meant to be shot through non-ported choke tubes. For best results when using all other shell types see page 6 for KICK'S High Flyer chokes.

Available in 10, 12, and 20 gauges.

FEATURES

- 17-4PH STAINLESS STEEL
- CHEMICALLY BLACKENED
- NON-PORTED, SMOOTH BORE DESIGN
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- NO WRENCH REQUIRED
- SIZE LABELING BASED ON STEEL SHOT PATTERNING

TURKEY *GOBLIN' THUNDER*

The award winning Goblin' Thunder is the original extended ported shotgun choke. With the right combination of shell, pellet, and choke constriction, Goblin' Thunder dependably delivers a 14"-16" pattern at 40 yards.

Available in 10, 12, 16, 20, 28, and .410 gauges.

FEATURES

- 17-4PH STAINLESS STEEL
- CHEMICALLY BLACKENED
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN

FOR BEST RESULTS, USE 3" SHELLS WITH #5 PELLETS

- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED
- SIZE LABELING BASED ON INSIDE DIAMETER MEASUREMENT

Also Available
in **CAMO**

DEER *BUCK KICKER*

Designed to control buckshot loads with more consistency than ever before, Buck Kicker chokes are available in several constrictions that can handle shot sizes from 000 to #4 buck. **Available in 10, 12, and 20 gauges.**

Also Available
in **CAMO**

FEATURES

- 17-4PH STAINLESS STEEL
- CHEMICALLY BLACKENED
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED
- 20" TO 22" PATTERN AT 40 YARDS

PREDATOR *HOWLER*

As coyote and other predator populations continue to rise, especially in populated areas, predator hunting is rapidly becoming a hunting segment that is both popular as well as necessary. Kick's Howler chokes are designed for maximum performance.

Available in 12 gauge.

FEATURES

- 17-4PH STAINLESS STEEL
- CHEMICALLY BLACKENED
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED
- 20" -25" PATTERN AT 40 YARDS

COMPETITIVE SHOOTING

SMOKE

From sporting clays and skeet to trap and five stand, our Smoke competition chokes give you what you need to maximize your potential.

Available in 12, 20, 28, and .410 gauges.

FEATURES

- 17-4PH STAINLESS STEEL
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED

SPORTING CLAYS

The best choke sizes for sporting clays are the **.010" Improved Cylinder** and the **.015" Light Modified**.

SKEET

The best choke sizes for skeet are the **-.005" Negative** and the **.000" Cylinder**.

TRAP

The best choke sizes for trap are the **.015" Light Modified** for the 16 yard line and **.025" Improved Modified** for the 27 yard line.

FIVE STAND

The best choke sizes for five stand are the **.010" Improved Cylinder** and the **.015" Light Modified**.

All Smoke chokes are labeled based on lead shot patterning. Smoke chokes can also be safely used with steel shot in constriction sizes Negative through Improved Modified.

COMPETITIVE SHOOTING

CARD SHOOTER

Offered in tighter constrictions than our other choke lines, our Card Shooter chokes are specifically intended for shooting paper targets. Designed for maximum performance. Available in 12 gauge only.

FEATURES

- 17-4PH STAINLESS STEEL
- ROUND ANGLE-PORTED EXTENSION
- CHOKE EXTENSION IS APPROXIMATELY 1 1/2" LONG
- UNIQUE CONICAL / PARALLEL INTERIOR DESIGN
- DENSER, MORE CONSISTENT PATTERNS
- RECOIL REDUCTION
- MUZZLE JUMP REDUCTION
- NO WRENCH REQUIRED

.640

Designed for use with #8 and #9 shot.

.650

Designed for use with #7.5 shot.

.680

Designed for use with #7.5, #8, and #9 shot.

To avoid personal injury or damage to your shotgun, Card Shooter chokes should be used with lead shot only. We do not offer refunds or exchanges on Card Shooter choke tubes.

ACCESSORIES

CHOKE CLEANER

Slip2000 is the best choke cleaner on the market (and we've tried them all). Just shake the jar, drop your chokes in, and let them soak.

(Not recommended for use on black chokes.)

ULTRA-BLUE CHOKE LUBE

Kick's UltraBlue reduces friction & increases velocity when used on inside surface. It helps keep chokes snug, improves patterning, and prevents corrosion. UltraBlue stays where you put it and is perfect for all moving parts of your gun.

Available in a 1 oz. jar or 3cc syringe (refillable).

CLEANING KIT

Everything you need to keep your barrel bore and shotgun chokes clean and ready to use.

Kit includes:

- (1) Speed adapter for your drill
- (4) Eight inch long aluminum extension rods
- (1) Stainless steel tornado brush
- (1) Knurled brass handle
- (Available in your choice of 12ga or 20ga)

SNAP CAP

Relieves pressure on firing pin and keeps chambers corrosion free. (Available in your choice of 12ga or 20ga)
